Websites

Sites built around what a business actually sells

The approach

A website earns its keep in the first five seconds. These are built for South African conditions — fast on mobile data, clear about what the business does, and structured so search engines can read them. No templates, no theme bought and recoloured.

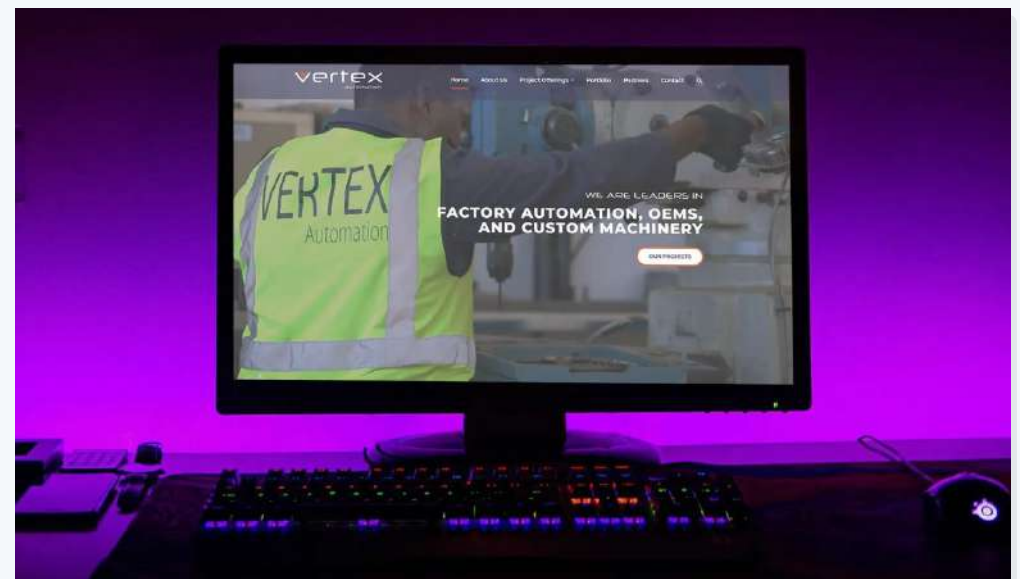

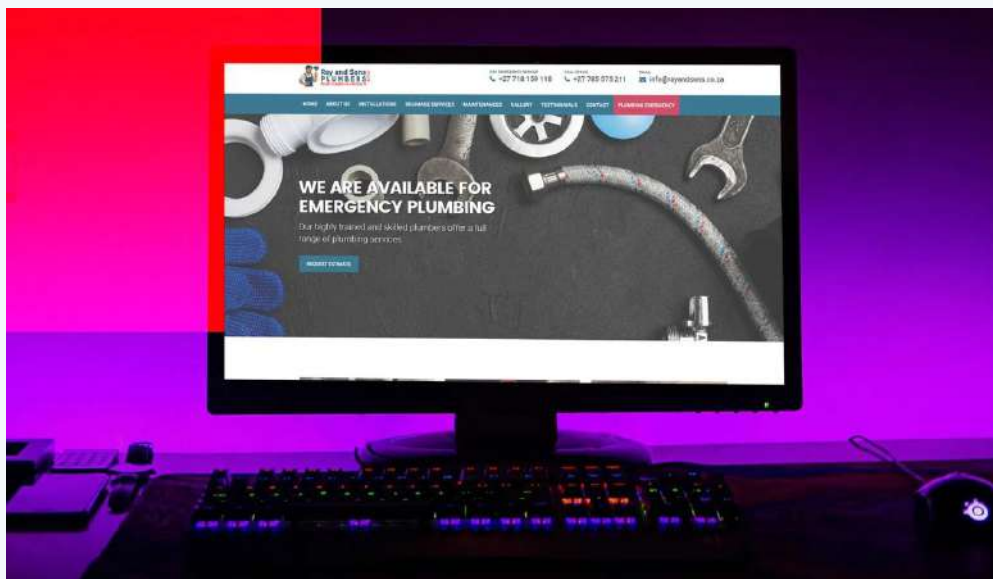

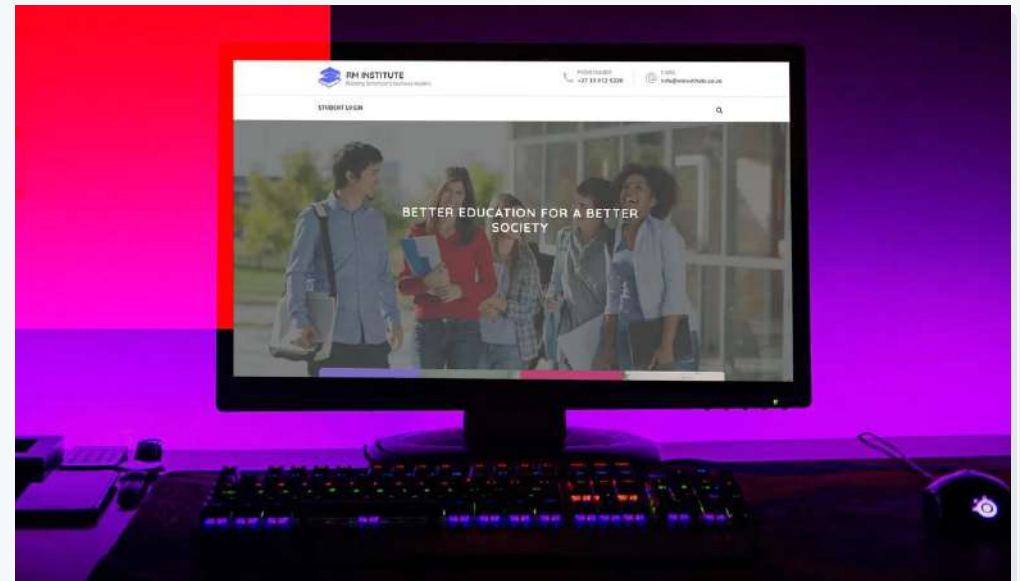

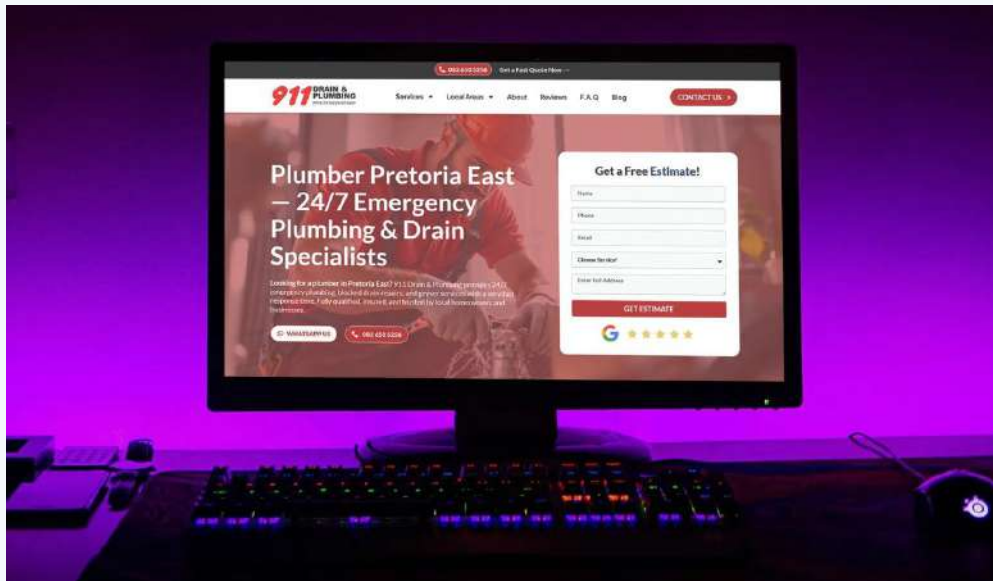

WHAT THIS INCLUDES

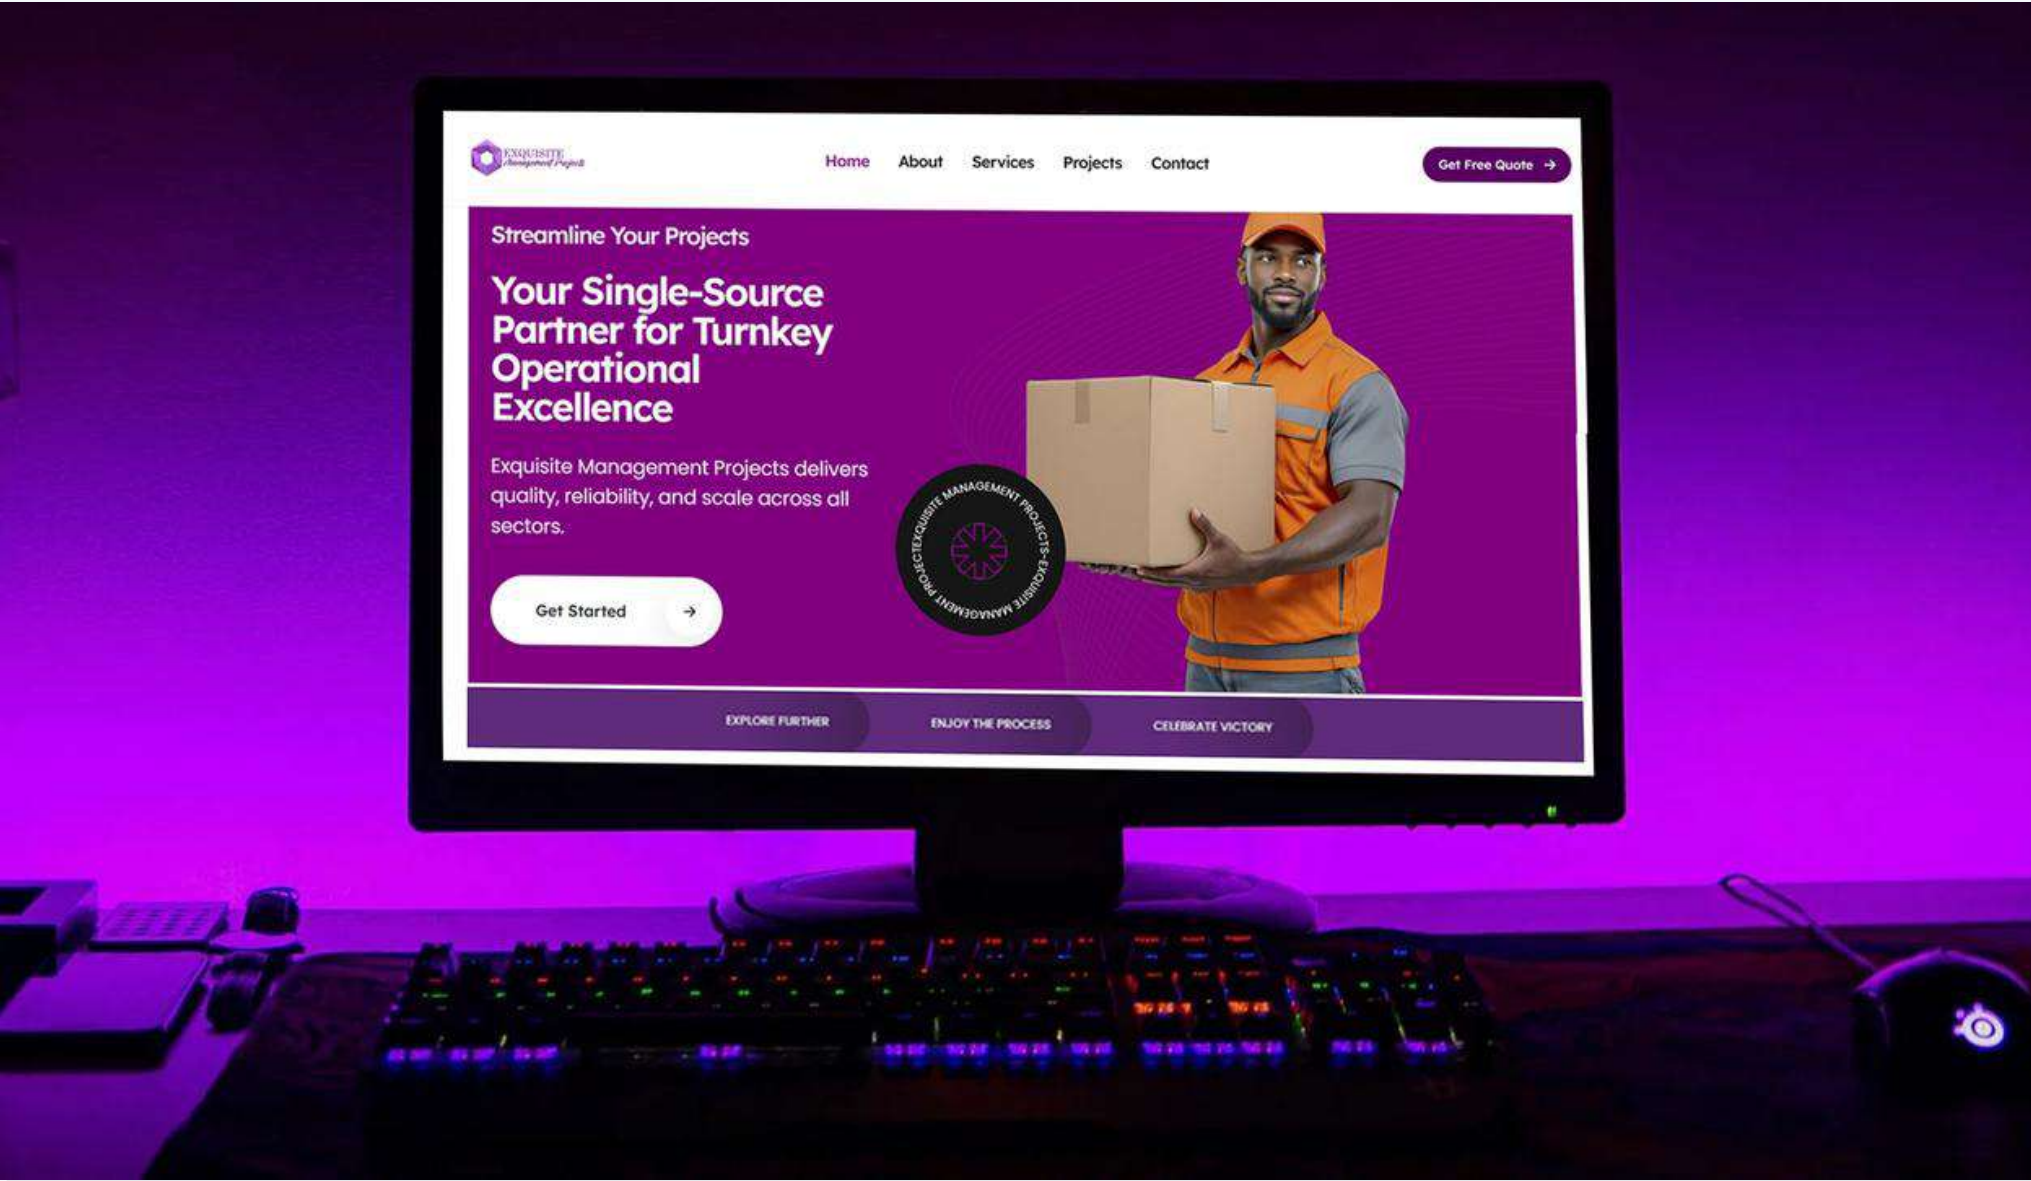

- Custom design, built page by page
- Fast on mobile data, tested on real devices
- Search structure built in from day one
- Hosting and domain included for the first year

A LOOK AHEAD

6ix Media SA
6ixmediasa.com

CATEGORY

Mobile Apps

Interfaces designed screen by screen

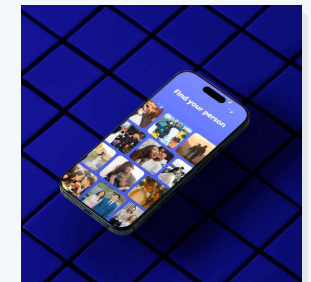

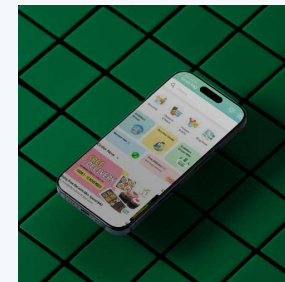

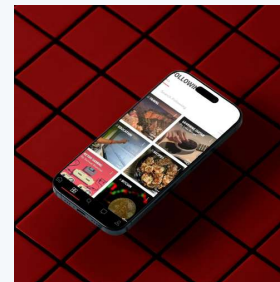

The approach

App design is a different discipline to web. Every screen has one job, the thumb has to reach everything, and the whole thing has to make sense to someone who has never seen it before and will not read instructions.

WHAT THIS INCLUDES

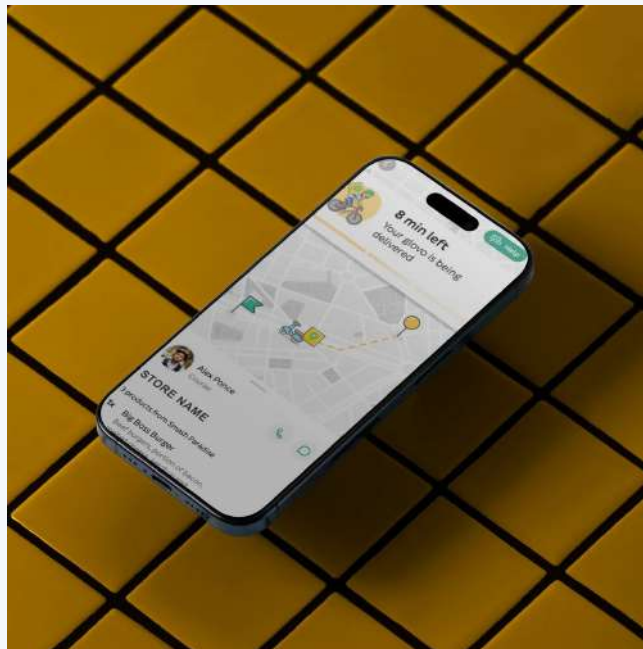

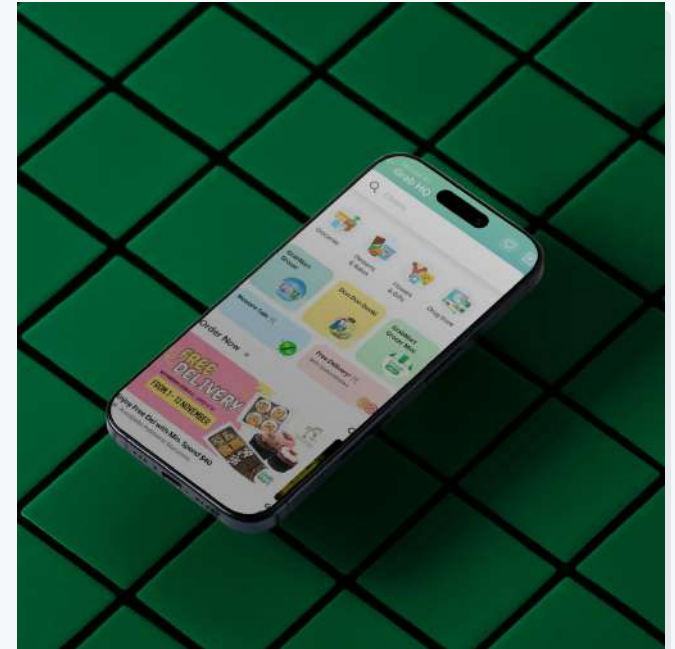

- Screen-by-screen interface design
- iOS and Android layouts
- Consistent component systems
- Built for handover to development

MOBILE APPS

MOBILE APPS

MOBILE APPS

Logo Design

Marks that work at every size

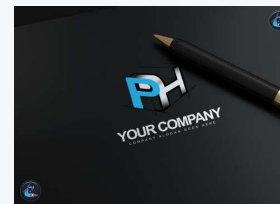

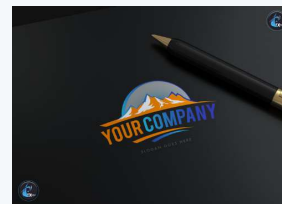

The approach

A logo has to survive being three metres wide on a shopfront and sixteen pixels wide in a browser tab. That constraint shapes everything — the weight of the strokes, the amount of detail, the way it behaves in a single colour.

WHAT THIS INCLUDES

- Custom marks, never stock or generated
- Vector files you own outright
- Single-colour and reversed versions
- Unlimited revisions during concepts

A LOOK AHEAD

Branding & Marketing

Identity applied everywhere it needs to live

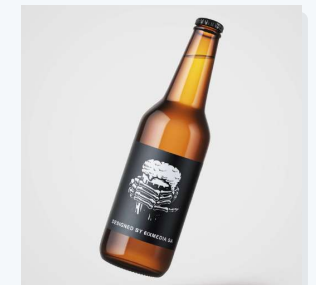

The approach

A logo on its own is not a brand. The work here is consistency — the same voice and the same palette across signage, social media, vehicle livery, packaging and everything a customer touches. It is what makes a small business look established.

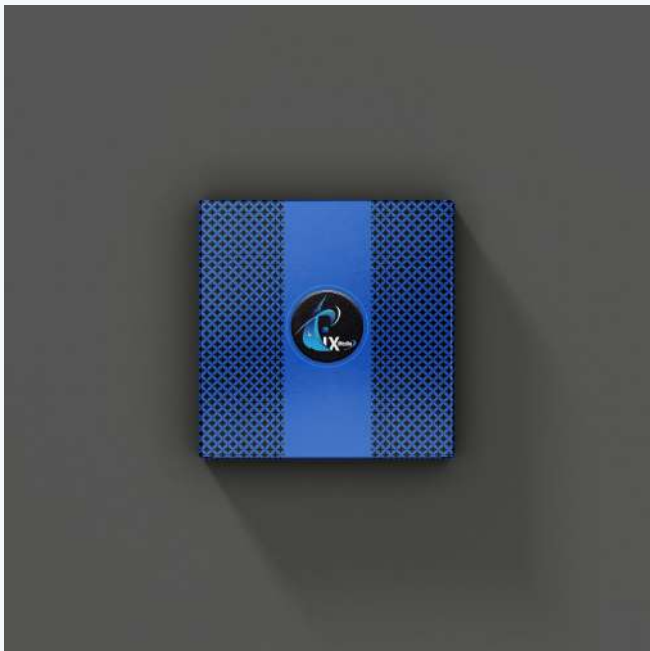

WHAT THIS INCLUDES

- Full identity systems
- Social media templates and campaigns
- Vehicle and signage application
- Brand guidelines your printer can follow

A LOOK AHEAD

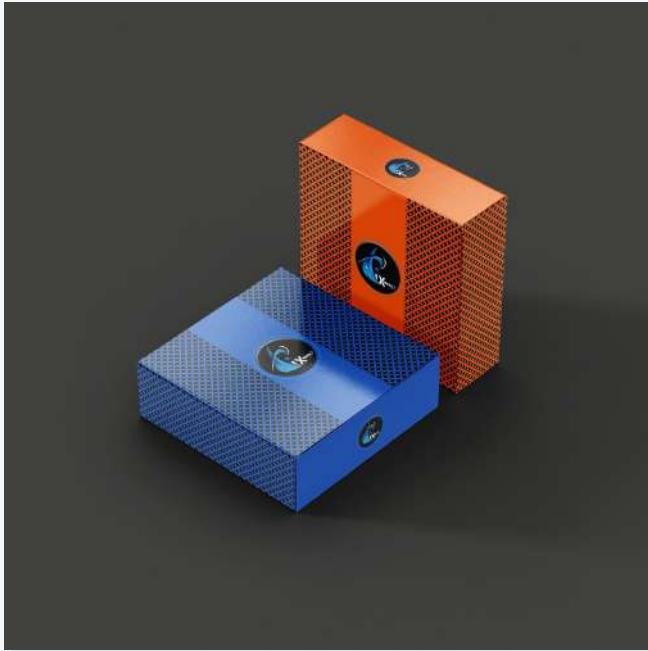

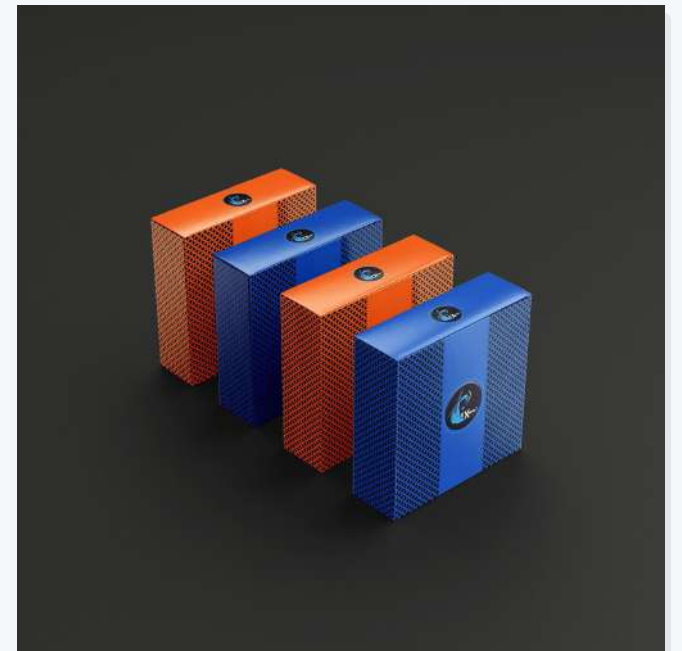

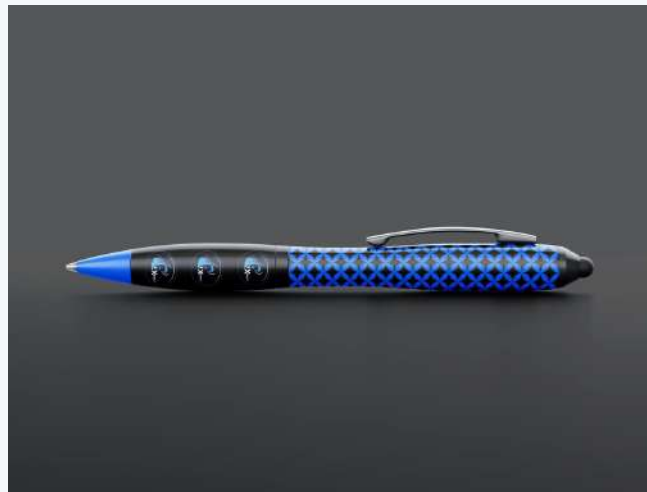

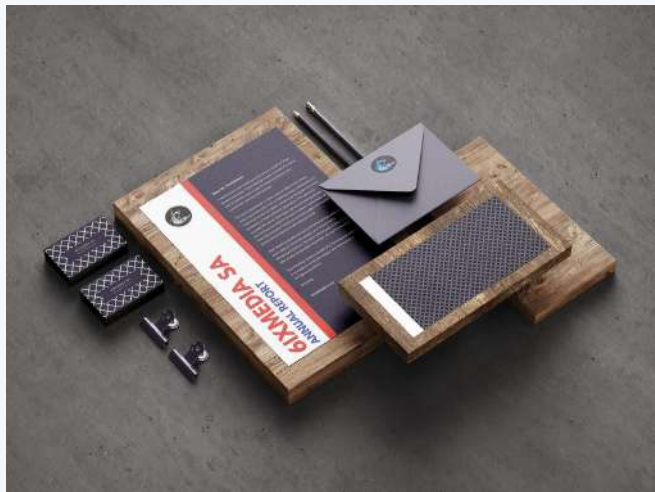

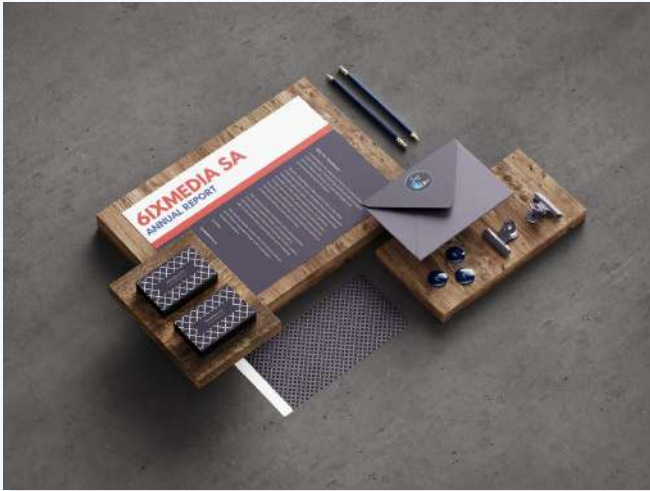

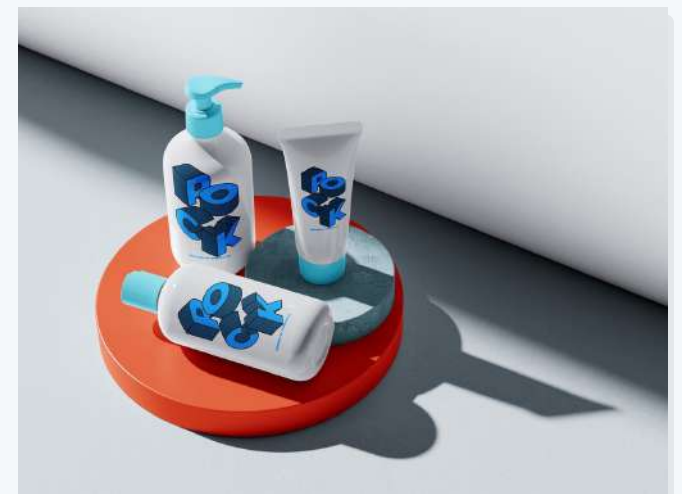

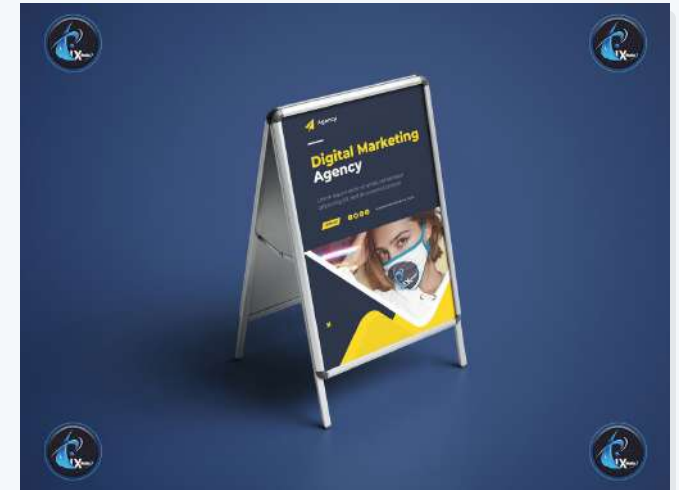

Print Design

Files that come back from the printer right

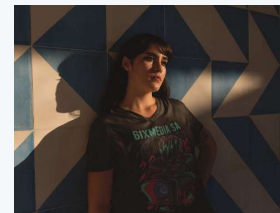

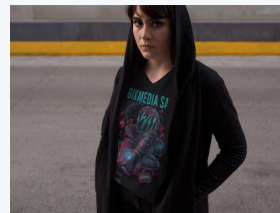

The approach

Print is unforgiving. Wrong colour space, missing bleed, low resolution — you find out after paying for a thousand copies. Everything here goes to the printer press-ready, in the right format, at the right size.

WHAT THIS INCLUDES

- Press-ready PDFs with bleed and crop marks
- Correct colour space for the process
- Brochures, menus, price lists, stationery
- Large format for banners and signage

A LOOK AHEAD

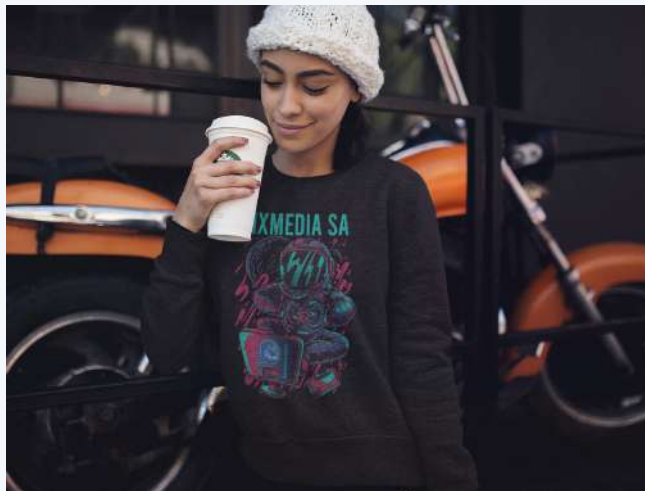

CATEGORY

Event Flyers

Designed to stop a thumb mid-scroll

The approach

Event promotion has one measurable job: get someone to stop, read the date, and remember the name. That means hierarchy before decoration — the headline act, the date and the venue legible at the size a phone actually displays them.

WHAT THIS INCLUDES

- Square and story formats for social
- Print versions for physical distribution
- Clear hierarchy for date, venue and lineup
- Fast turnaround for short-notice events

CATEGORY

Posters

Large format built to be seen at distance

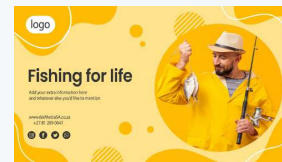

The approach

A poster is read from across a room, not from a desk. The whole composition has to work at a glance, then reward a closer look. These are prepared at full print resolution and hold up at any size.

WHAT THIS INCLUDES

- Print-resolution artwork
- Composition built for viewing distance
- Promotional and informational formats
- Digital versions for screens and social

A LOOK AHEAD

6ix Media SA
6ixmediasa.com

CATEGORY

Creative

Concept work and visual exploration

The approach

Not everything fits a brief. This is the work where the idea came first — visual experiments, concept pieces, and the exploratory work that ends up informing client projects later on.

WHAT THIS INCLUDES

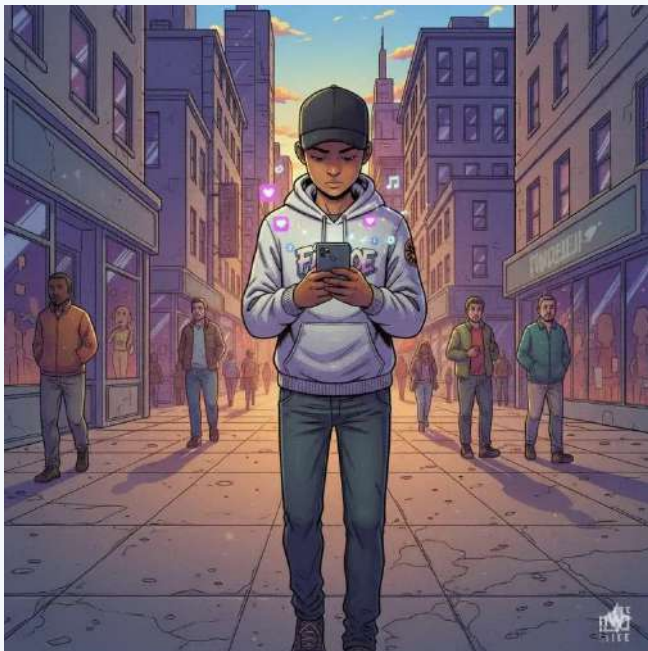

- Concept and visual development
- Illustration and composite work
- Campaign ideation
- Art direction

A LOOK AHEAD

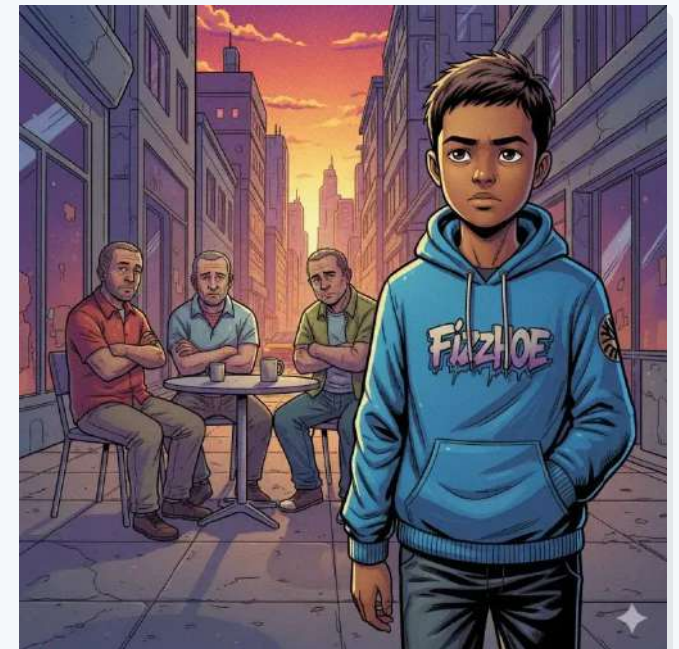

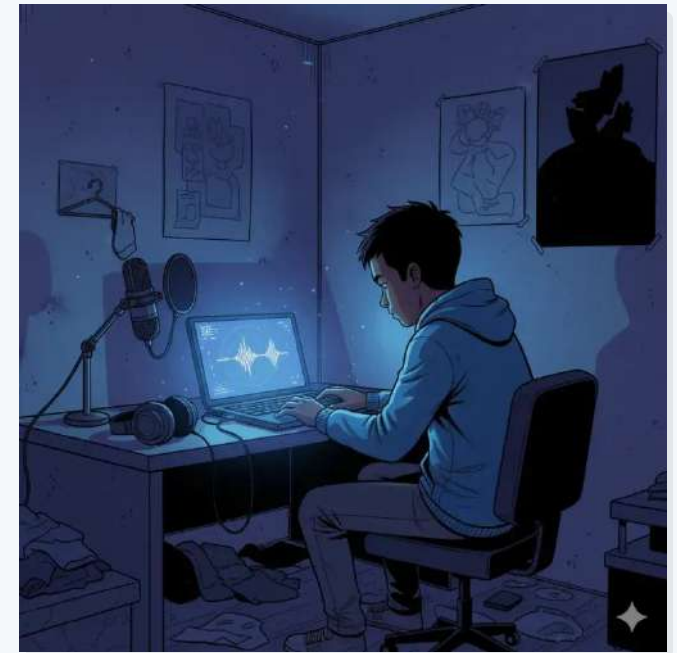

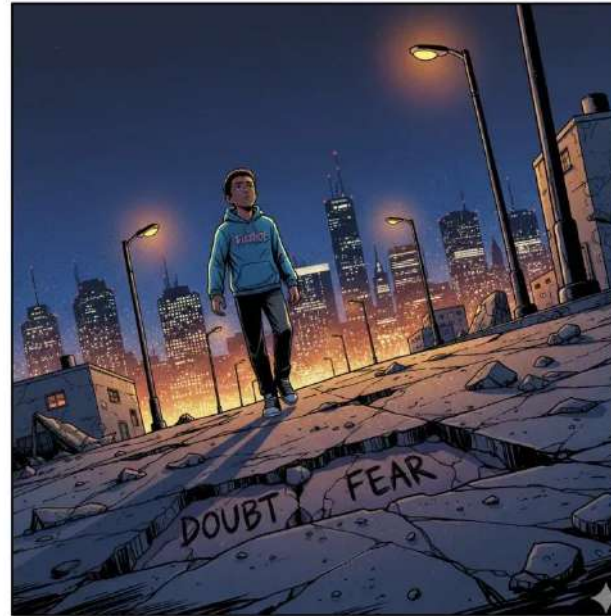

6ix Media SA
6ixmediasa.com

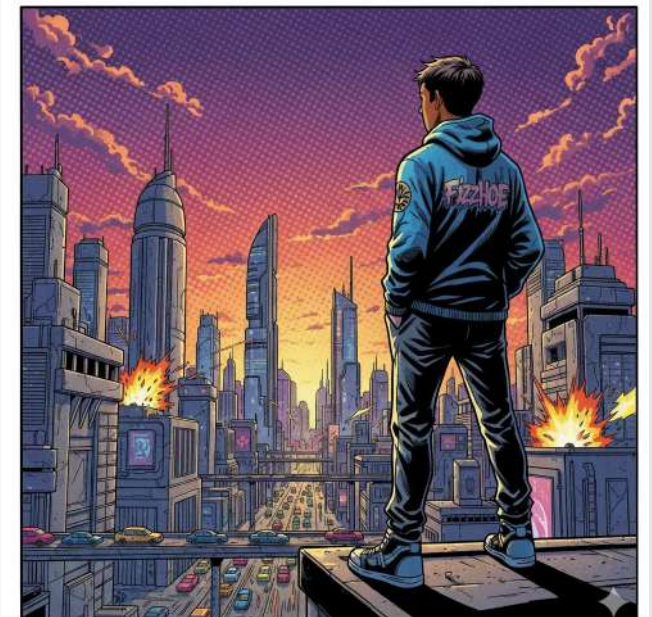

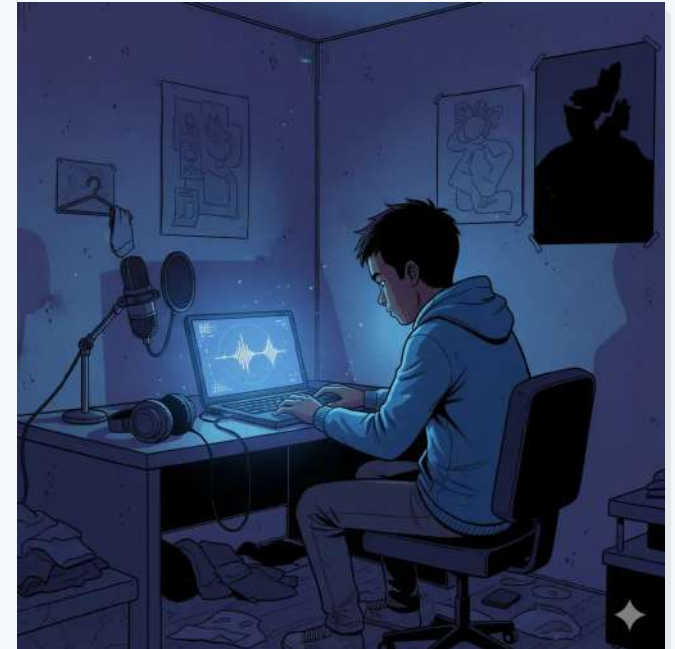

CATEGORY

Song Covers

Artwork for release, sized for every platform

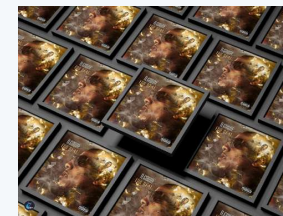

The approach

Cover art lives at thumbnail size on a streaming app and at full size on a feed. It has to read at both. These are built to the specifications each platform requires, so nothing is cropped or rejected at upload.

WHAT THIS INCLUDES

- Single and album artwork
- Sized correctly for every streaming platform
- Matching social announcement assets
- High resolution masters supplied

A LOOK AHEAD

6ix Media SA
6ixmediasa.com

CATEGORY

Product & Flavour Design

Packaging that has to sell from a shelf

The approach

Packaging competes at arm's length against a dozen alternatives. Flavour identity, legal requirements and shelf visibility all have to coexist in a space smaller than a postcard.

WHAT THIS INCLUDES

- Flavour and variant identity systems
- Label and packaging artwork
- Print-ready with dielines
- Range consistency across products

A LOOK AHEAD

6ix Media SA
6ixmediasa.com

CATEGORY

Stickers

Small format, high impact

The approach

Stickers are the cheapest branded object a business can put in a customer's hand. They have to work small, survive being cut, and still look like the brand they came from.

WHAT THIS INCLUDES

- Die-cut and standard shapes
- Promotional and packaging seals
- Print-ready with cut lines
- Range and set design

A LOOK AHEAD

6ix Media SA
6ixmediasa.com

CATEGORY

Company Profiles

Documents that win the tender

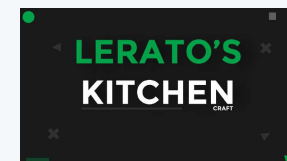

The approach

A company profile is often the only thing a procurement officer sees before deciding. It has to look established, find the compliance documents quickly, and make the case without the reader having to work for it.

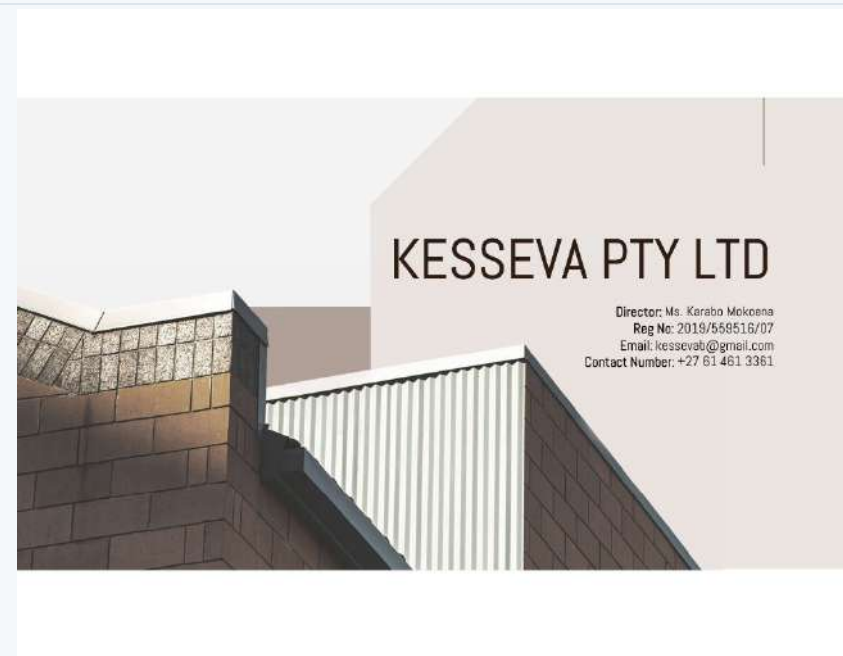

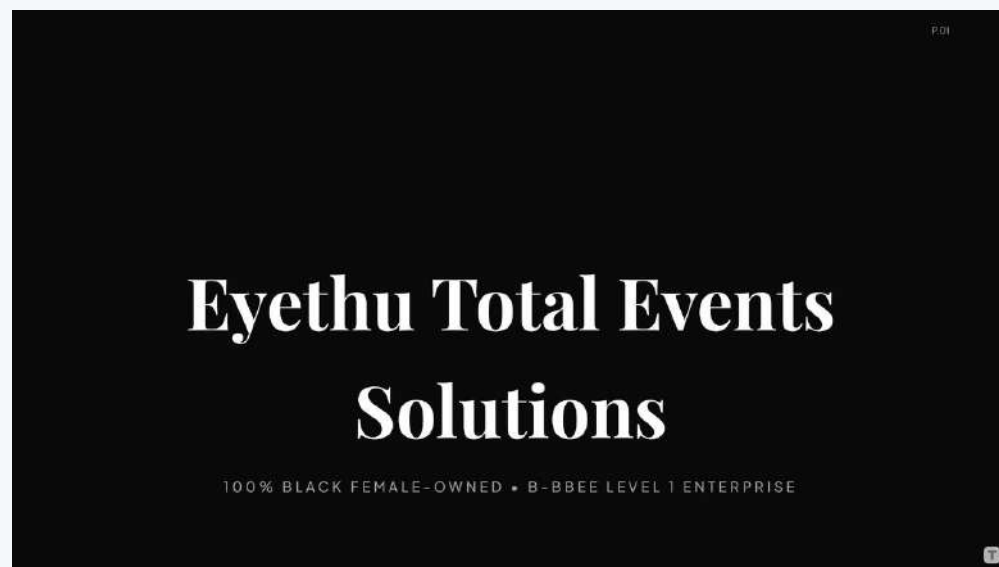

WHAT THIS INCLUDES

- Full company profile documents
- Capability statements and proposals
- Tender and procurement ready
- Print and digital versions
