

NMCS GLOBAL

Leading Wholesale Distributor

Who We Are

NMCS Global is a premier, full-service supply chain and logistics company specializing in the dynamic trade route between China and Africa. We are committed to delivering reliable, scalable, and cost-effective transport solutions tailored to this unique corridor. By bridging the gap between Chinese markets and African destinations, we support businesses of all sizes with seamless, end-to-end freight and supply chain services.

Why Choose Us

Shipping between China and Africa presents unique opportunities and complex challenges—and we are experts at navigating them. We understand that no two businesses are the same, which is why we offer tailored logistics strategies aligned with your specific industry and operational requirements. From initial supplier pickup anywhere in China to final delivery across the African continent, our expert team oversees the entire logistics cycle. We bridge the cultural and geographical distance, handle the regulatory complexities, and ensure complete peace of mind.

Core Services

Providing comprehensive, Wholesale and single products at factory price, end-to-end logistics solutions that ensure seamless transportation, storage, and delivery across local and international markets.

Procurement

Navigate the vast Chinese manufacturing landscape with confidence. We act as your on-the-ground procurement partner in China, helping you identify reliable suppliers, negotiate favorable pricing, and source high-quality materials and products tailored to your specific African market.

Supplier Management

Eliminate language barriers and time-zone delays. We handle the day-to-day communication and coordination with your Chinese manufacturers, ensuring production schedules are met, purchase orders are executed accurately, and supplier relationships are optimized.

Product Inspection

Protect your investment before it ever leaves the port. Our dedicated teams conduct rigorous factory audits, pre-shipment inspections, and quality assurance checks in China, ensuring all goods meet your exact standards and African import compliance requirements before they are shipped.

Multi-Vendor Consolidation

Optimize your shipping costs and inventory flow. If you are buying from multiple factories across China, we receive and store your goods at our local hubs, consolidating them into single, cost-effective container loads (FCL/LCL) for streamlined shipment to Africa.

Freight & Logistic

Seamless, multimodal transportation engineered for the China-Africa corridor. We design the most efficient routing—combining road, sea, and air freight—to move your goods from the factory floor in China to your distribution centers or project sites in Africa, prioritizing speed and cost-efficiency.

Trade Compliance

Minimize risk and prevent border delays. We proactively manage the complex regulatory landscape, ensuring all Chinese export documentation and African import tariffs, duties, and compliance requirements are strictly adhered to for frictionless trade.

Industries We Serve

We support a wide range of industries, including:

- Retail & E-commerce
- Manufacturing
- Automotive
- Agriculture
- Construction
- Medical & Pharmaceutical

Who We Are

NMCS Global is a comprehensive supply chain and logistics company built on a foundation of efficiency, trust, and operational excellence. Specializing in the vital trade corridor between China and Africa, we deliver end-to-end solutions that help businesses operate and scale without disruption. With a robust, dual-continent network of manufacturing partners, carriers, and logistics professionals, we coordinate complex procurement and shipping operations with absolute precision. Whether managing multi-vendor consolidation at Chinese ports or finalizing last-mile distribution across African markets, we ensure every shipment is handled with strategic care and professionalism.

History

NMCS Global was founded with a clear vision: to simplify international trade while raising the standard of reliability in the China-Africa supply chain. What began as a focused freight coordination operation quickly expanded as clients recognized our unique ability to navigate the complexities of this intercontinental route—including language barriers, regulatory hurdles, and cross-border logistics. Our early growth was driven by a hands-on approach, close client collaboration, and a commitment to building systems that ensure transparency at every stage of the procurement and logistics cycle.

As demand for our specialized expertise increased, NMCS Global broadened its capabilities. We evolved from moving freight to integrating complete supply chain solutions—incorporating strategic sourcing, warehousing, customs facilitation, and specialized cargo handling. By adopting advanced tracking systems and data-driven logistics planning, we strengthened our ability to manage large-scale operations without losing our personalized service. Today, NMCS Global stands as a trusted, all-around supply chain partner serving diverse industries, backed by a growing international network and a reputation built on performance, adaptability, and long-term client success.

Mission & Vision

Vision Values

To empower businesses by providing seamless, reliable, and cost-effective supply chain solutions between China and Africa. We strive to simplify global trade, eliminate operational barriers, and deliver exceptional value from the factory floor to the final destination through transparent logistics and dedicated partnership.
